iOS – Add a Sub-user

Introduction

This document is a quick guide on how to add another user (sub user) on the HYYP app using an iOS devices.

A HYYP device (HYYP Hub or HYYP IP Module) referred to on the HYYP app as a site, can only be linked using the HYYP device's ID to one user, which is known as the master user. All other HYYP app users must be added as sub users by the master user.

1. How to Add a Sub User

1.1. Select the Site

First step is to select the site, then TAP on the three dots in the top right. This will display the site's menu as shown on the right picture. Select option 'Users.'

1.2. Add a Sub User

The next step is to type in or scan the HYYP Users ID (HYYP ID) to be added to the site. This can be found on the other users HYYP app within 'My Profile.' Either scan the QR code or type the HYYP ID numbers.
